

## Finlandia Fine Woodworking

Bob Lindberg has been working with wood since he was a boy, first as a carpenter and builder, then building furniture and finally as a woodturner. He and his wife, Maryann, live in a house he built in Swanzey, where he no longer has to house his workshop in the garage! His wood designs reflect his Finnish and Swedish heritage,

and every piece is as unique as the tree from which it came. His pieces tend toward the practical, ranging from pieced cutting boards and rolling pins to bowls, pens and other beautiful works for everyday use. He also does commissioned furniture, having built beds, armoires, tables, desks and other personalized works. Among his work, you will find woods ranging from common maple and oak to exotic, sustainably-harvested woods from all over the world. For more information, contact Bob at [rmlindberg@aol.com](mailto:rmlindberg@aol.com) or 603-355-7672.
